

*In Love we are one* (Music and words: Mui Kwong Chiu)

I'd like to stroll along the seashore,  
When the golden twilight's setting upon my head,  
And I know I am young and strong as the golden sun;

Free birds singing out in the skyline, and the  
Breezy night is blowing in the air,  
And I know I'm young and strong as the golden sun;

\* Soft wind blows me mystery of the lifetime,  
Cloudy sky holds me all the way,  
Echo in the distance of the hillside  
All is fine in love we are one;

Sometimes sadness creeps upon me,  
Uncertainty with lost like you are,  
But I know I'm young and strong as the golden sun;

Glimpse of truth glitters into my eyes,  
And the painful time dissolves in the sky,  
And I know I'm young and strong as the golden sun,

\* (Repeat)

Though the night may scare you,  
Winter tides may crush young,  
And the world may fall on you,  
Don't you ever break away!  
And I'd like you as I am

Keep on going all along,

For I know you are young and strong as the golden sun;

Soft wind told me mystery of the life time,

Cloudy sky holds me all the way,

Echo in the distance of the hillside,

“All is fine in love we are one!

All is fine in love we are one!

All is fine in love we are one!

All is fine in love we are one!”
